

## Solutions for Success: Take-Out Software for Strengthening Foodservice

Meet the demands of your busy customers with online ordering that busts lines and improves service levels. An average of 175,000 orders are processed through the TRAX Platform weekly, representing this powerful system's ability to improve the lives of foodservice operators. Online ordering will revolutionize the way your customers view foodservice because our Take-Out Solution helps you take care of the people you serve.

### Flexible Technology

The TRAX Platform delivers a broad range of capabilities that would otherwise require multiple disparate systems. Our web-based software has countless configurations that can be molded to meet the needs of you and your customers.

### Superior Service

To us, SaaS means Service as a Software. Improving the lives of foodservice operators is ingrained in our DNA. That's why our support team averages over a 90% satisfaction rating, exceeding expectations of customer support industry-wide.

### The CaterTrax Effect

A client survey on the impact of the TRAX Platform boast these impressive results:

**50-75% more efficient** by restoring coordination and control with back of the house tools.

**75-100% more accurate** due to improved communications with customers and staff.

**10-20 hours per week saved** by streamlining operational management and minimizing mistakes.

*"CaterTrax has been a tremendous resource for our organization. From implementation to training to customer support - every interaction with CaterTrax has exceeded our expectations."*

Lisa Mahoney, Director of Foodservice, Thomas Cuisine

# TAKE CARE OF BUSY CUSTOMERS

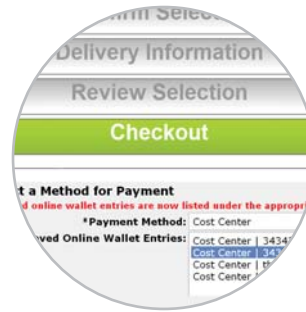

## Front of House Features

Convenience and quality is a click away. The user-friendly mobile interface gives every customer access to online ordering on their mobile device or desktop. With unlimited access to your menu from anywhere, customers can maximize meal times around their schedule and yours.

### Convenient Mobile Interface

Customers maximize their meal time with online ordering from any device, ensuring you can reach busy customers with countless options at their fingertips.

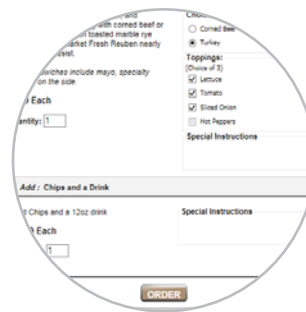

### Online Wallets

Customers can save payment information in a secure system to speed up the checkout process for future orders, encouraging repeat business and improving customer experience.

### Easy Checkout

The TRAX Platform makes it quick and easy for customers to place repeat orders in a few clicks.

### Customizable Menus

The TRAX Platform supports basic to complex menus and enables easy up-selling of add-ons that help increase check averages.

## Scalable Capabilities

CaterTrax partners with large multi-units across the nation that don't want to utilize multiple disparate systems to manage sales data, order history, or customer data. Enterprise management is made simple by offering each location a customized solution that will roll up key data points for corporate-wide reporting, promotions, and branding. We also provide a portfolio of professional and managed services that can enrich the functionality of your CaterTrax solution.

# EXCEPTIONAL STAFF PERFORMANCE

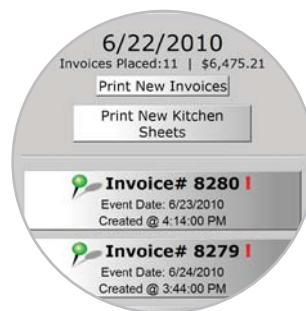

## Back of House Features

Operators can easily manage lead times and set date and time blocks to remove the stress of last minute orders. Production features keep operations organized during busy times. Prepaid orders and pick-up and delivery options reduce café lines at peak meal times and take the pressure off busy staff.

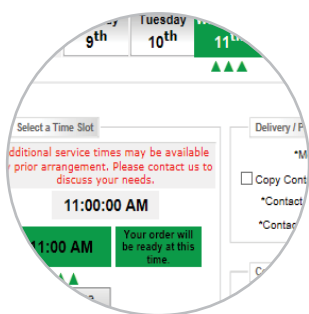

### Dynamic Reporting

The TRAX Platform automatically captures powerful data that gives you visibility into historical trends through reporting, so you can make better business decisions.

### Live Order Monitor

Easily keep track of orders in real-time with an order monitor that displays a live, scrolling feed you can pop out and keep running when you're not logged into the TRAX Platform.

### Lead Time Management

Your specific delivery and pick-up times, locations, and hours of operation are built directly into the ordering process, so you can avoid impossible order requests.

### Prepaid Orders

The convenience of pre-paying for take-out and delivery orders shrinks long lines and delivery times while increasing sales potential and customer satisfaction.

*"Taking customer service to the next level! When I'm having a sour day I enjoy talking to my friends at TRAX Support. I consistently get helpful, friendly, professional service."*

# The Leading Catering Management Software

## THE TRAX PLATFORM

The TRAX Platform is built by caterers for caterers. Our impressive portfolio of features speaks to our ability to meet all of your needs. The TRAX Platform is able to power your operations with a comprehensive suite of features our competitors can't provide in a single user-friendly system. CaterTrax offers 50% more features than our leading competitors combined. See how our solutions stack up below.
