

ADMINISTRATOR USER GUIDE: MENU EDIT TOOL

Our Menu Edit Tool is designed to help you make direct and immediate changes to your menu(s)*. With this guide, you will learn how to quickly edit prices, hide or show products, adjust order minimums, and add dates for seasonal or limited-time products.

*Available menus to edit are subject to your business or enterprise standards.

ACCESS THE MENU EDIT TOOL

Make sure you are signed in to your administrator portal.

1. Click **Config** in the top navigation. (Figure 1)
2. Check **Menu Setup**.
3. Select **Menu Edit Tool**. (Figure 1)

NAVIGATE THE MENU EDIT TOOL

By default, the Menu Edit Tool tabs* will display all corresponding products, product components, features, and feature choices from the **all menus on your site**. To only view items from a specific menu, you will need to select it from the **Filter by Category Group** dropdown. (Figure 2)

Note: The **Products** tab is used for products that display a numerical price on your menu. If the product shows "Price Varies," and allows the customer to select from a few options, or lists departments (common with hospital Floor Stock menus), use the **Feature Choices** tab to edit those options.

**Available tabs and fields to edit are subject to your business or enterprise standards.*

EDIT PRICES

You can edit prices for both **products** and **feature choices**. Change the price displayed on your menu by entering your new price in the appropriate field. (Figure 3)

NOTE: When you alter any of the fields in the Menu Edit Tool, the box will highlight yellow until you click **Save Changes**. **You must always select Save Changes or your edits will not be applied.** (Figure 3)

ADD MINIMUM QUANTITY

Add a minimum **product** quantity by entering the minimum value in its **Min Qty** field. (Figure 4)

Note: Adding a minimum will force that value to default into the quantity field for that product. If customers try to order less, the system will prevent them from adding the items to their cart. Minimums can only be set for **products**, not for feature choices.

Menu Item Name	Menu Item Description	Kitchen Notes	Price	Hidden	Min Qty
Table and Stage Drapri	Tables may be draped for regi...		<input type="text" value="0"/>	<input type="checkbox"/>	<input type="text"/>
Traditional Buffet	Traditional Buffet for any even...	Garden Salad, Oven Roasted...	<input type="text" value="12.99"/>	<input type="checkbox"/>	<input type="text" value="10"/>

HIDE PRODUCTS / FEATURE CHOICES

To hide a **product** or **feature choice** that you no longer want to allow customers to order, check **Hidden** in the appropriate row. (Figure 5)

- If you hide a **product**, the entire offering will be hidden from your menu.
- If you hide a **feature choice**, only that specific choice will no longer be available. The rest of the options can still be ordered. *(To hide all of the options, you must hide the entire **product** rather than all of the **feature choices** individually.)*

To hide an entire category or menu, you must submit a support ticket.

Feature Choice		Price	Hidden
1% Milk, 4 oz. (par 8) - each		0.18	<input type="checkbox"/>
Apple Juice, 4 oz. (par 24) - each		0.13	<input type="checkbox"/>

ADD START AND/OR END DATES

To make a product or feature only visible for a specified time, select a date in the **Start Date** and **End Date** fields. (Figure 6)

This is commonly used for seasonal and limited-time items.

Menu Item Name	Menu Item Description	Kitchen Notes	Price	Hidden	Min Qty	Start Date	End Date
Build Your Own	Select all of your favoritest So...		5	<input type="checkbox"/>
