

Slider Image Gallery

The variety of images within this document are for your **slider**, the slideshow of images located in the middle of your homepage. You can select up to 4 images for your slider that can be hyperlinked to a destination of your choice. Use this document to highlight your favorites and work with our Site Build Team to add them to your site. Refer to our design document for dimensions if you would like to use your own images instead of the images CaterTrax selected.

NOTE: Only one form of animation per homepage is suggested, being the image carousel OR image sliders.
